

Our Partnership Goals

Sociedad Cooperativa Trabajadores de Pascual, S.C.L. is a 100% Mexican Company, with a long tradition and expertise of over 50 years in the processing of natural fruit with the highest quality standards.

It is considered a pioneer, and it is at the forefront to process fruit pulp. It has the technical and professional resources of the highest quality level in Mexico and compared to the best in the world. The company offers natural, healthy and nutritious beverages in the range of juices, nectars, fruit pulp, purified water and soft drinks, such as: Pato Pascual, Lulú and Mexicola which are carbonated beverages and Boing which is a non-carbonated fruit-based beverage.

Their flagship brand today is BOING, a fruit-based beverage launched in the early 1960's in Mexico and which today continues to be one of the most recognized brands in the market. The product options and flavors preserve the best of Mexico keeping the quality and taste that make Boing stand out.

Because of its quality and closeness to the Mexican consumer this product has been imported illegally from Mexico to satisfy the demand from its loyal consumers.

We at Esscalo, have partnered with Cooperativa Pascual in Mexico with the goal to increase Boing's presence in the US market and with the presentations that are preferred by the consumers, offering the best quality product at the best price for our clients.

At Esscalo, we design production programs for the food industry, by working with our producers at the growing fields in Mexico by tailoring solutions to satisfy the demand of our clients and their customers.

We are constantly scouting and developing growers to identify specific solutions tailored to specifically the needs of our clients. Our producers specialize in organic products and have all certifications needed for Northamerica and Europe.

Fresh Produce & Fruits

We work with a variety of fresh produce growers, specializing in organic products, who also have the capability to supply frozen processed vegetables, mixed veggies and RTE products; and the flexibility to ship them with our grower's brand or our client's brands, as well as in a retail or food service presentation.

Green asparagus

Yellow squash

Celery

Zucchini

Vegetales
congelados

We work with one of the largest producers of key lime, lime and lemon in Mexico, either for fresh product or for commercial and retail lime or lemon juice to be used either as a finish product or as an ingredient for the food service industry.

Additionally, we have identified producers for most citric and tropical fruits in Mexico, through them we can supply any product fresh or as raw material for any processed food needs.

Lemon

Lime

Key Lime

Tangerine

Processed products

We work with the best lime and lemon producers in Mexico, covering all seasons with the highest quality products. We can source fresh citrus products as well as processed Lime or Lemon juice, in commercial and retail presentations to be offered either as a finish product or as an ingredient for the food service industry.

Lime juice

Freeze Dried Products

At esscalo we have a commercial partnership with a producer of freeze dried products and have developed product solutions aimed to the food service segment, some of these products are: guacamole, honey, ice cream, fruit yogurt bars, fruits with “tajin” as well as recipes for the hospitality segment like “jugo verde” (green juice) among others.

We can schedule a tasting with some of our products with your staff to taste our quality.
